schedule a call and/or meeting.

PORTFOLIO OF  
ARCHITECTURAL DESIGN

## ABOUT ME

---

As an early designer, I wish to convey the feeling or experience of a project through its architectural drawings and visualization. I enjoy exploring architectural design through detailed 3D graphic visual representation.

My technical skills/abilities include 3D Building Information Modeling (BIM) software, design presentation drafting, construction documentation drafting, city/county construction permitting, consultant coordination, and photo/video editing.

I am interested in experiencing the Residential, Commercial, Mixed-Use, Education, and Hospitality design market. Activities and hobbies I partake in include fitness/exercise, art/animation, gaming/computer technology, convention/concert events, and photography/video editing.

## EXPERIENCE

---
