

Junior Architectural Designer | Gruen Associates | Los Angeles, CA

Gruen Associates is an award-winning Los Angeles architectural, planning and landscape design firm with a diverse and extensive portfolio of projects. Our depth of experience and passion for innovation encourages creativity in a broad range of building types. We pride ourselves in mentoring employees in their careers and provide opportunities for career advancement and promotion. In addition to a competitive salary commensurate with experience, we offer a benefits package which includes health, vision and life insurance, a 401(k) plan, vacation and paid sick leave and licensing support.

Gruen Associates is an equal opportunity employer that embraces diversity of backgrounds, perspectives, experience and skills. We offer a collaborative and innovative culture with unique opportunities for growth and experience, and we evaluate qualified applicants without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, veteran status, and other legally protected characteristics.

Salary Range \$65,000/year to \$75,000/year commensurate with experience

Job Description: We are looking for accomplished full-time candidates to join our team. Qualified candidates should be able to work effectively as part of an overall design team. People with initiative and the willingness to push themselves are ideal candidates. This is a position for a talented individual with an opportunity to develop one's career in a highly professional setting.

Job Requirements:

- Degree in Architecture
- Candidates on the path to architectural licensure
- Proficient in Revit and AutoCAD. 3D modeling skills in Rhino or SketchUp a plus
- Working knowledge of Adobe Illustrator
- Should have some experience reading and drawing construction documents.
- Excellent written and verbal communication skills
- Self-motivated, team-oriented, and adaptable
- Must be a problem solver and demonstrate accuracy and thoroughness in their work
- Should be organized and able to communicate with the project team
- Receive directions from supervisors and apply it to work product
- Research materials/products to help the team determine appropriateness
- Produce drawings in the various phases under the direction of supervisors
- Review own work to ensure it is complete
- Ask questions of supervisors to understand the work being performed
- Work closely with other staff members, senior staff and principals on each project from schematic design through construction administration
