BERLINER
ARCHITECTS

Job Title – **Project Architect**
Firm Name – **Berliner Architects**
Position Location – **Culver City, CA**

Firm Profile

Berliner Architects focuses on developing solid partnerships with mission-based organizations, helping them realize their goals by creating buildings and spaces that embody their values and community, making Every Space Count. We are known for our innovative designs in K-14 Education, Entertainment, Spiritual Spaces, Single-Family Residential, and Master Planning.

We value and encourage curiosity and ambition and seek a highly motivated licensed architect to join our team. Berliner Architects is a highly collaborative office where architecture and interiors are closely integrated throughout the design process. Weekly discussions and monthly office meetings fuel shared firm creativity.

What We Can Offer You:

- Collaborative, fun, engaging environment with high-quality design on community-based projects.
- A small firm environment allows you to play a larger role in projects and stay on projects from the start of design to completion.
- Comprehensive benefits package including medical, dental, vision, 401K, life insurance, paid holidays, and paid time off.
- Professional development sponsorships and opportunities, including membership and testing fees, in-office opportunities for licensure credits, and sponsorship of events and conferences.

Job Description

Berliner Architects is currently seeking a **Project Architect** with 7-10 years of experience who shares our passion for thoughtfully designed spaces and making a difference in the community.

Your Approach

You are a strong, self-directed professional who can lead a team from kickoff through design, documentation, and construction administration. You are passionate about community-based design, equity, and sustainable design. You have a strong design sense and technical skills to bring those designs to life.

Job Requirements

- 7-10 years experience in architectural design, technical drawing, project management, and 3D modeling.
- Bachelor's or Master's degree in architecture.
- Strong technical working experience in Revit and AutoCAD is required and non-negotiable.
- Management and organization skills to lead projects from schematic design to construction administration.
- Excellent presentation and communication skills, including graphic, oral, and written communication. Must be able to maintain close communication with clients, consultants, vendors, and team members.
- Licensed Architect with the State of California
- Preferred Experience with the Division of State Architects (DSA).

Salary Range

$110K - $125K

Contact Information

On the Berliner team, we believe that every space counts and that every voice counts, too. We'd like to hear yours.
